*Passion
for roses*

SINCE  1973

KLÜMPEN ROSES

Klümpen Roses specializes in the production of special cut roses. We have a wide range of colors, color combinations and special features.

We have been active in horticulture for more than 50 years and have come a long way, from a small 2-man business to today's family-oriented cut rose production horticulture.

In order to deliver our special roses all over the world, we use the best production technologies with sustainability in mind. Such as solar energy, water treatment systems, wood chip heating, paper packaging and the use of beneficial organisms.

Solution-oriented, committed and with a lot of passion, we focus on our rose production of tomorrow to always put a smile on our customers' faces.

Our horticultural company, a family business, is also our home and is located in the beautiful flower town of Straelen.
